

Helping Babies Breathe

a global educational program in neonatal resuscitation for birth attendants

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN™

Helping Babies Breathe

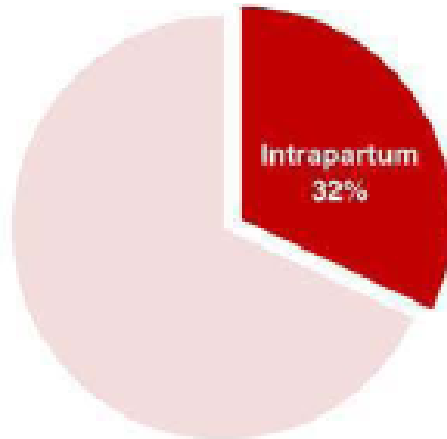

Helping Babies Breathe

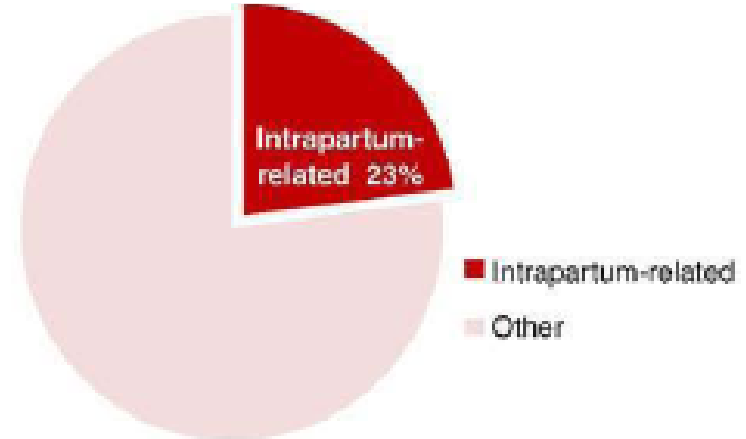

Target of Helping Babies Breathe

Stillbirths
3.2 million per year

1 million “stillbirths”
due to asphyxia

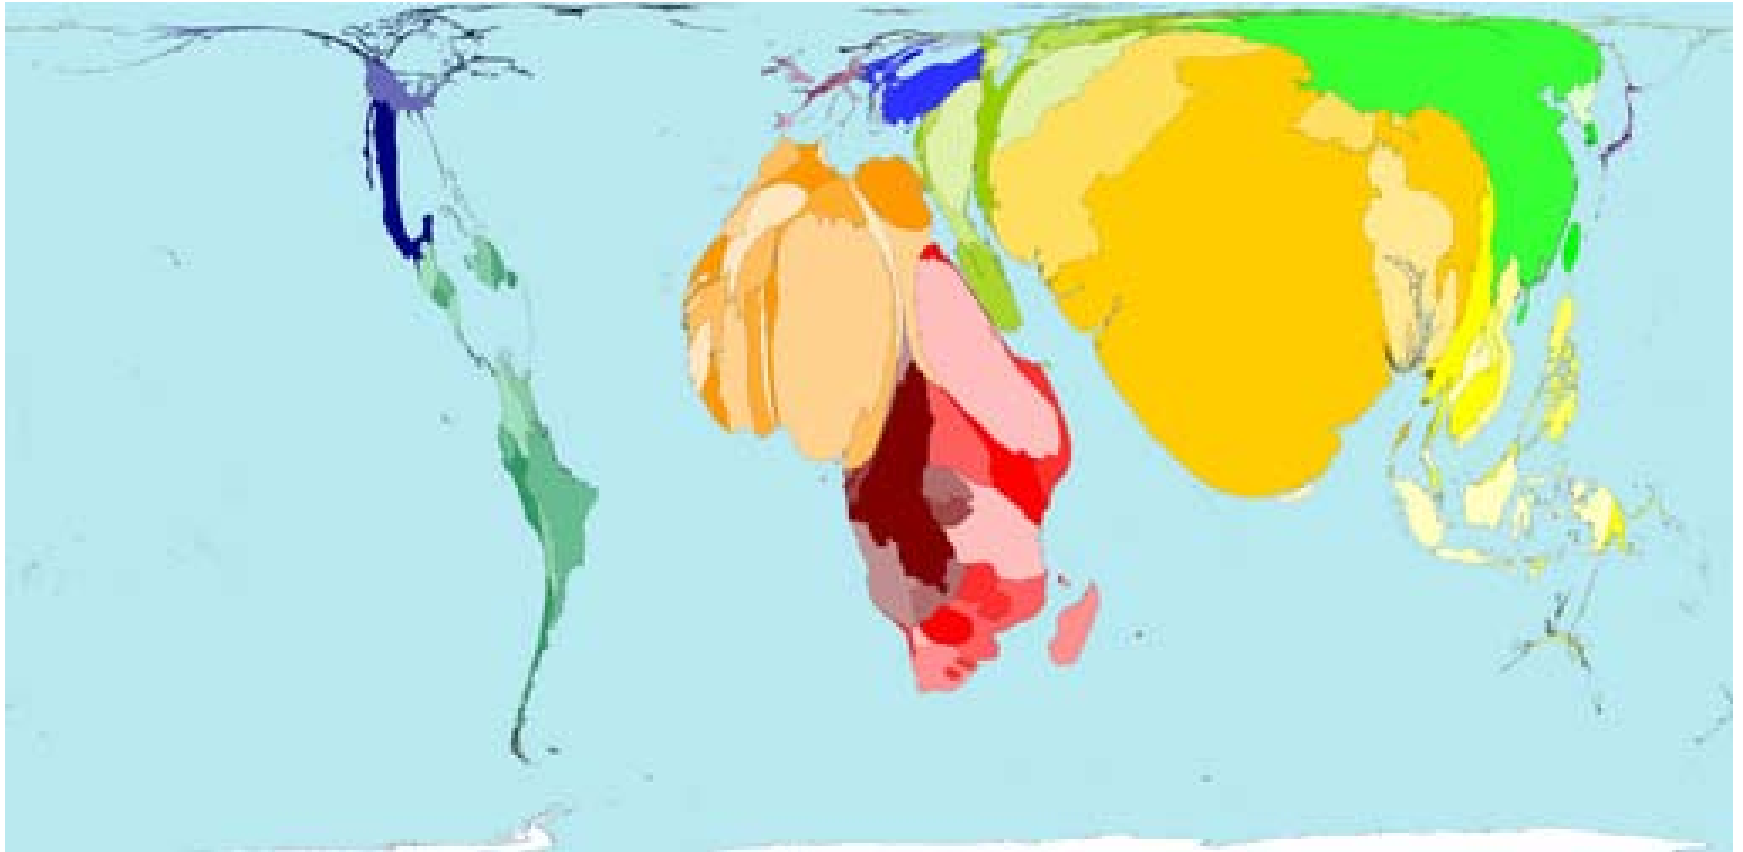

Neonatal deaths
3.8 million per year

830,000 neonatal deaths
due to asphyxia

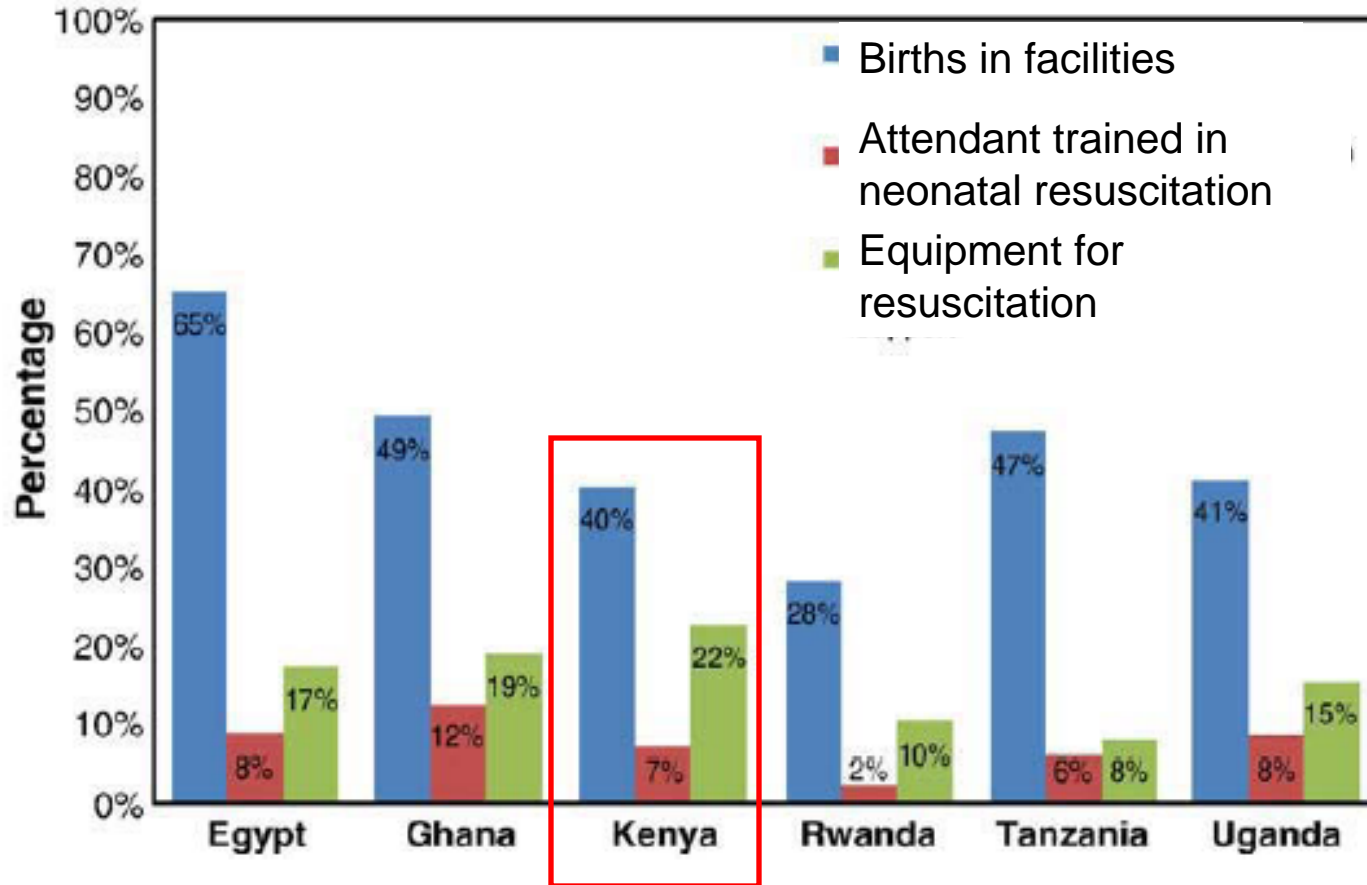

Early neonatal deaths

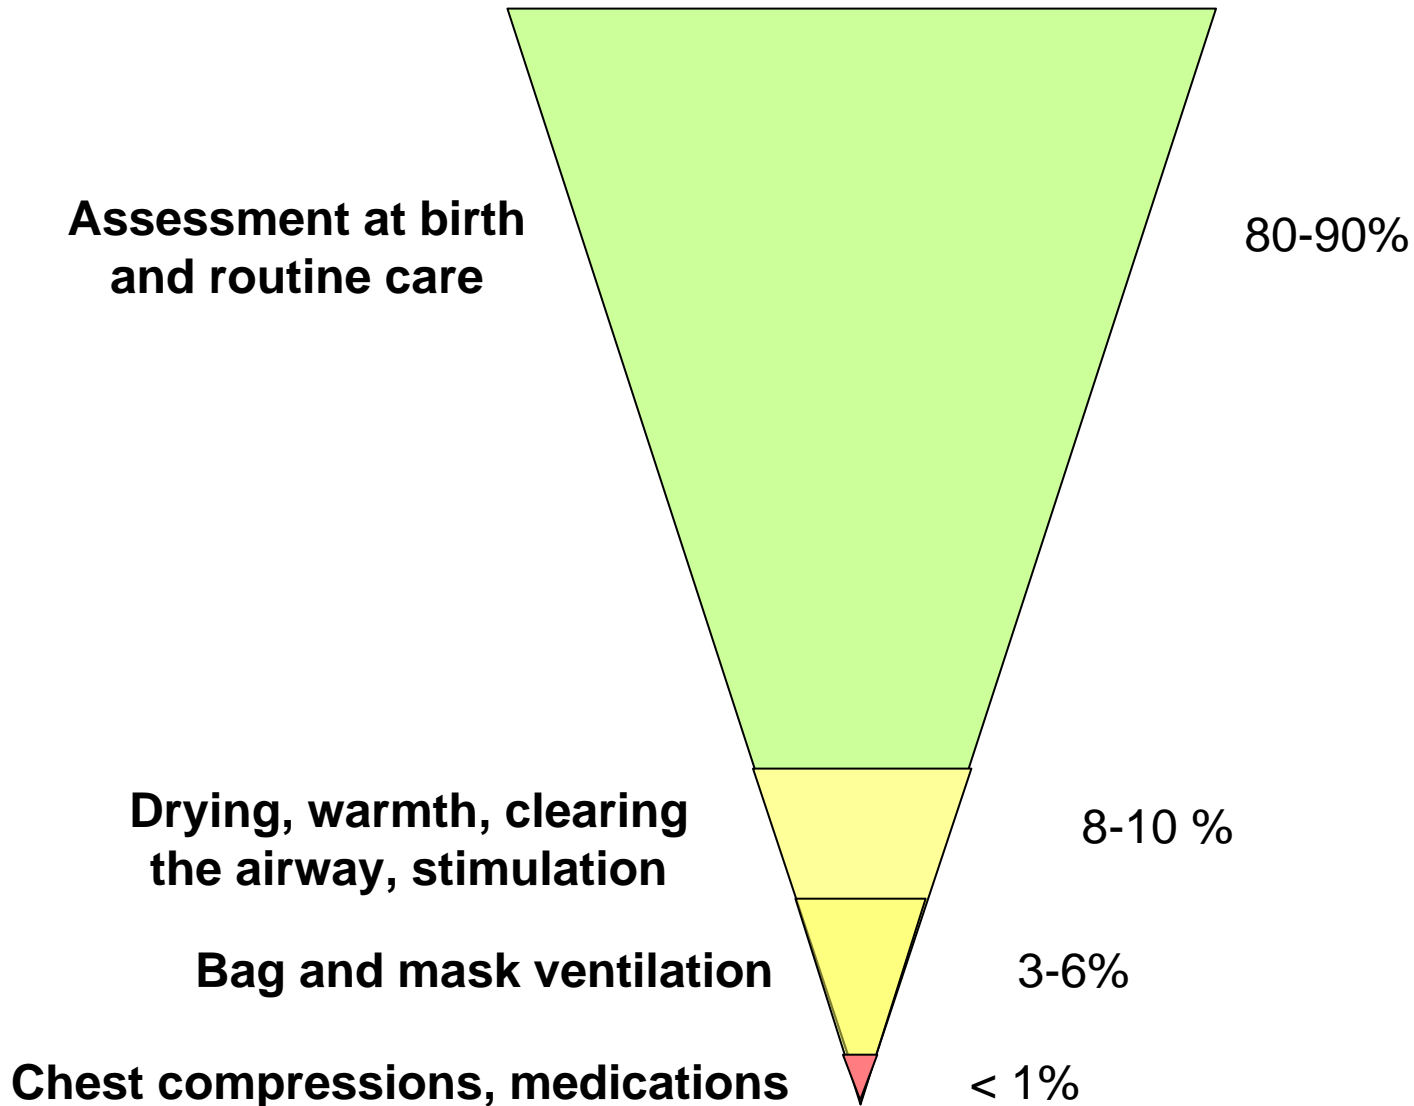

Circumstances at birth

Need for help to breathe at birth

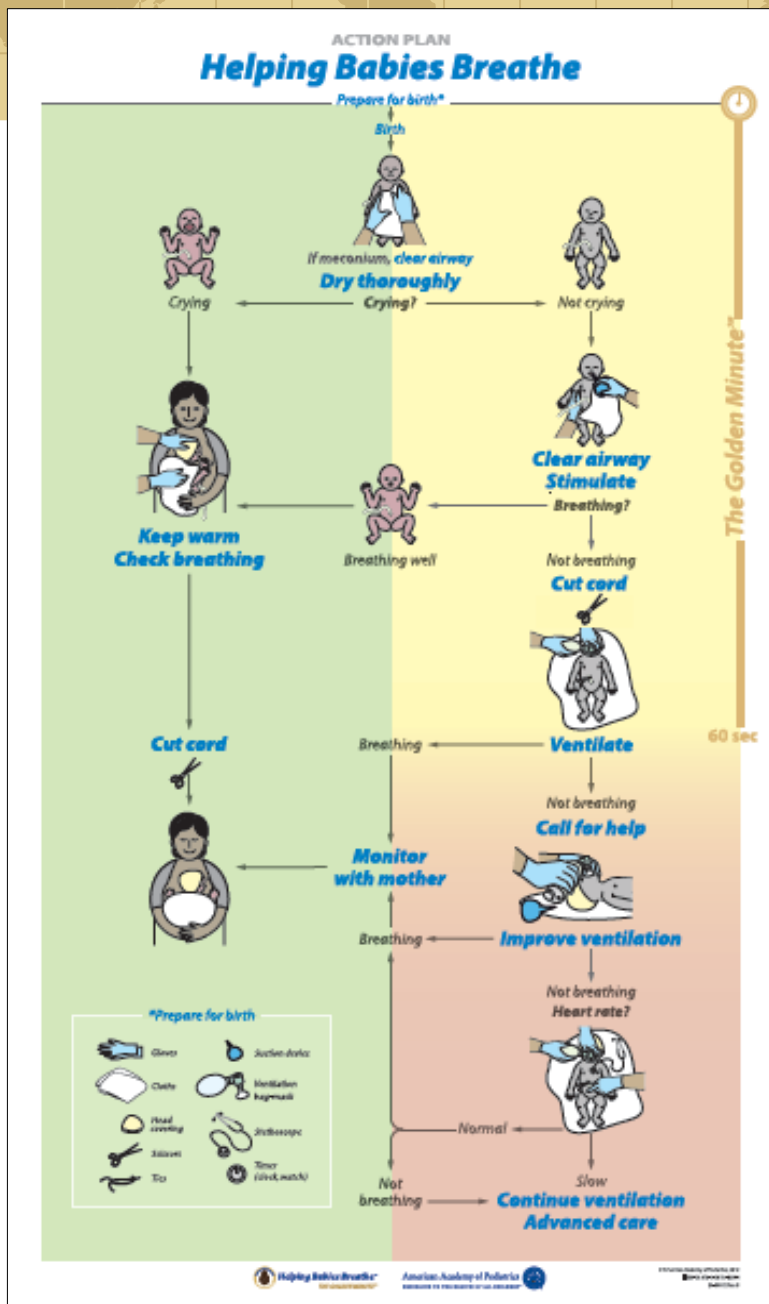

Helping Babies Breathe

evidence base and evaluation

- Scientific evidence base
 - International consensus on science
 - Revision every 5 years
- Harmonization with international health policy
 - WHO technical expert review
- Formative evaluation of content/methodology
 - Delphi panel
 - Field testing – Kenya, Pakistan, Tanzania, India, Bangladesh

Action Plan

Helping Babies Breathe

Helping babies breathe

1. Airway
2. Breathing
3. Circulation

4. Duct handling
5. Chest compressions
6. Endotracheal intubation
7. Chest compressions
8. Endotracheal intubation
9. Chest compressions
10. Endotracheal intubation
11. Chest compressions
12. Endotracheal intubation
13. Chest compressions
14. Endotracheal intubation
15. Chest compressions
16. Endotracheal intubation
17. Chest compressions
18. Endotracheal intubation
19. Chest compressions
20. Endotracheal intubation
21. Chest compressions
22. Endotracheal intubation
23. Chest compressions
24. Endotracheal intubation
25. Chest compressions
26. Endotracheal intubation
27. Chest compressions
28. Endotracheal intubation
29. Chest compressions
30. Endotracheal intubation
31. Chest compressions
32. Endotracheal intubation
33. Chest compressions
34. Endotracheal intubation
35. Chest compressions
36. Endotracheal intubation
37. Chest compressions
38. Endotracheal intubation
39. Chest compressions
40. Endotracheal intubation
41. Chest compressions
42. Endotracheal intubation
43. Chest compressions
44. Endotracheal intubation
45. Chest compressions
46. Endotracheal intubation
47. Chest compressions
48. Endotracheal intubation
49. Chest compressions
50. Endotracheal intubation

Evaluation after drying
Is the baby crying?
