

VI. Conclusion

This manual builds on experience to date implementing the Helping Babies Breathe initiative. It is a living document that will be updated as the program evolves to reflect field needs and experiences. User insights and questions about implementing the program and using the

Helping Babies Breathe package of planning and training materials – including suggestions for other useful tools – are welcome. Questions can be directed to HBB@aap.org and experiences shared at www.helpingbabiesbreathe.org or www.healthynewbornnetwork.org.
